### MEMORANDUM

From Alan Lomax Archive of Folksong Division

To THE CHIEF OF THE Music Division

Woodie Guthrie, from whom the Archive has received a great number of ballads, left in my possession a manuscript book which contains the background for these songs. When he asked me to return the manuscript, I first had it microfilmed, feeling that it was unique and of importance for the Archive and for the Library.

The Photoduplication Service has requested that I pay them the \$6.60 owing for this piece of work and I shall be glad to do so if the Music Division is not able to take care of the bill at this time.
